Subject: Re: EMF FMC OU IR ETT: Pre-review Facilitation

Categories: Lepic 3-22 to 4-4

Ok Michael. Let me think about a potential third party. I have some ideas.

Lou,

We are still working toward a "Work Order" for the EMF FMC OU IR ETT project. One request has come up. Does Argonne have access to, or can ANL provide directly, an independent facilitator? What we are looking for is a good facilitator, someone that has some technical subject knowledge regarding hazardous waste site cleanup, but someone that will not be considered for the Independent Review Team. We are looking for someone to assist EPA and the Tribes to resolve the remaining issues regarding (and related to) the Work Order for this project. It is my understanding that the facilitator might be needed as soon as May for a possible teleconference/webmeeting and a possible face to face meeting in June. Let me know if you need more information for an initial determination of "if this is a service" Argonne can provide at this time.

Thanks,

Mike
